# DESERET EVENING NEWS IS IT BLACKMAIL OR BROKEN PROMISE?

Sensational Charge Made Against Stolzenberger, the Loan Agent By Mrs. Brink.

### FORMER MAKES STRONG DENIAL

Says Story That He Ruined Her or Promised to Marry Her is False-Calls it Blackmail.

A breach of promise suit has been filed in the district court by Amelia Brink against Edward F. Stolzenberger, a loan broker whose office is in the Morlan block. The plaintiff alleges that on June 1, 1903, defendant asked her to marry him, and that she agreed so to Defendant refused to marry her within a reasonable time, and, on Nov. 20, 1903, she requested that he fulfill his promise of marriage, but he refused to

Under promise of marriage, it is alleged that defendant took undue advantage of plaintiff and has caused her great mental anguish and has impaired her health and destroyed her chastity, for all of which she asks judgment against him in the sum of \$5,000, together with costs of suit.

Mr. Stolzenberger, the defendant in the case, said today when seen in rela-tion to the matter that when the facts were all known it would not be diffi-cult to understand the woman's motive. Amplifying his statement Mr. Stolzen-"On Oct. 30, 1903, Mrs. Brink gave

On March 14 she paid on that loan \$117.50. Since that time, however, she has defaulted both in her interest and principal, and on June 18 I filed a complaint to foreclose the mortgage. That suit is now pending in the city court of this city. She was served with a summons on June 20, was served with a summons on June 20, and she takes this method of avoiding and she takes this method of avoiding the payment of this note and mortgage. The doctor states that there are 1.250,000 persons in the United States who have tuberculosis and 14 of these persons die every hour from the disease. ### BIG ORDER FOR WATTERS.

Salt Lake Physician Invents Desirable Article for Sewing Up Wounds.

Dr. Watters is busy preparing 3,000 tubes of sterilized cat gut for use in the government hospitals in the Philippine islands. The process is a secret one of Dr. Watters' own invention, and the fact that he is called on for large orders shows that he has discovered a process that is of the greatest moment to the medical world. Catgut for the purpose of stitching up wounds comes from European sheep, as the sheep in this country are too fat and the testinal tissue in consequence does not possess that tensile strength that characterizes the article from the leaner European sheep. But the trouble with European sheep is that their intestines are infect ed with the Anthrax germ which ca not be destroyed except by bolling; and ordinary bolling gelatinizes the article so as to render it valueless. Dr. Wat-ters' process boils and destroys all the disease germs without gelatinization. and leaves it in its full strength and

When wounds are sewed up with this article the latter is slowly absorbed in the human tissue, as it is animal mat-ter, and disappears. For this reason it is far more desirable than silk, or linen thread, as the thread is not absorbed, but remains as a source of ir ritation later, and small filaments of the threads actually wander around the system sometimes being picked out at distant parts of the body. So when threads are used, they must be picked out as the wound heals up.
